

To Whom It May Concern:

I am Chun-Ta Huang, an Instructor of Visual Communications at the King's Design& Art School in Taiwan. I am writing this wholehearted recommendation for my former student, Ching-Ping Wang for consideration in your prestigious institution.

Mr. Wang is a diligent, creative and very multi-talented individual. He excelled in his creative projects. In one of the courses Mr. WANG studied under me in, he worked on a "Self-Portrait" project which all students worked on. His experimentation with multiple materials for his medium, his out-of-the-box introspective portrayal of himself, and the passion with which he pursued this project were inspirational to observe. I was very moved by the way he worked, and his final self-portrait. He not only has a natural sense of creativity, but he shows a lot of intelligence and diligence in his work. He continued to work on several other projects while in the King's Design& Art School. He is also a gifted musician, photographer and painter.

I have full confidence that if accepted to your institution, he will both be shaped by your fine institution's excellent curriculum, as well as contribute many great things as a member of your academic body. He can only be, in my professional opinion, a great asset and contributor to you and his fellow students there.

Thank you for your time in considering Chang-Ping Wang for your master's program. Please feel free to contact me if you require any additional information.

Sincerely,

Chun-Ta, Huang
Instructor
King's Design & Art School
