

實踐大學

Shih Chien University

To Whom It May Concern,

I am pleased to recommend Ching-ping, Wang, who participated in my human resource management classes for 2 semesters at Shih Chin University in Taiwan. In order to achieve great performances, he has maintained positive attitude and studied diligently. When he joined the Industry-Academy Cooperation Plan, he showed his talent on design and creative thinking. In addition, he was the one who organized and scheduled his group with other students, and he was able to fulfill all the requirements with the role of the project manager.

Ching-ping demonstrated his superior knowledge and involvement in class, and developed a sense of management with a professional attitude. He always has burning desire to learn not only about business management but also into design and art field. With his great interest in design, he has engaged in design courses in Shih Chien University. Therefore, I believe that he has the talent and ability to prepare the master degree in design and art.

I sincerely recommend Ching-Ping, Wang as the ideal candidate for matriculation at your program.

Sincerely yours,

Yen-Fen Lo, Ph.D.

Associate Professor of Department of Business Administration,
Shih Chin University.
